Give Create a geometric ?  
composition with paper

Rate

---

**Time required:** 2hours

For a design-inspired decor... create a piece of wall art by piling up paper pyramids.

**List of materials:**

- **Canson® Mi-Teintes 160g/m<sup>2</sup>** [6]: Anis, Sand, Sepia, Southern seas, Ultramarine, Ivy, Pearl
- Craft knife - scissors
- Cardboard

- 

Paper glue (with brush applicator)

- Self-adhesive hanger
- Template: **Pyramids** [7]

## Step 1: Templates

Download and print out the [pyramid patterns](#) [7] on [papiers Canson® Mi-teintes](#) [6], with at least one sheet of each colour. .

## Step 2: Cutting out

Use scissors to cut out all the templates and then mark the folds using a ruler.

For aesthetic reasons, it's a good idea to mark the fold on the front of the paper (the unprinted side) to ensure crisp edges; use the cut-out templates to help you.

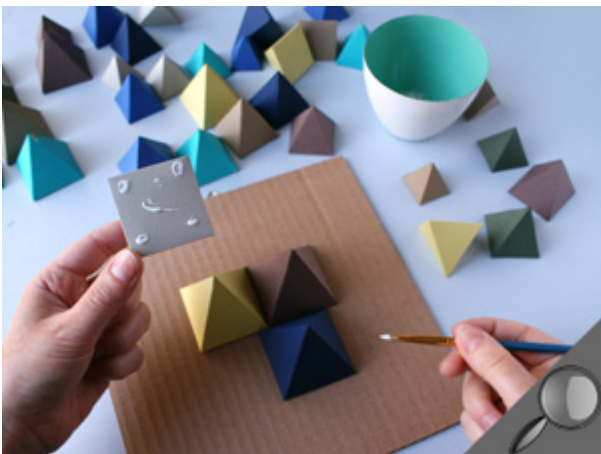

### **Step 3: Glueing**

Assemble all your pyramids by glueing the tabs one by one.

## Step 4: Base

Cut out a 22cm square from the cardboard and glue a self-adhesive hanger on the back, in the centre.

## Step 5: Assembly

Glue your pyramids to the cardboard base, trying to alternate colours and optimising their layout to ensure that they're as close together as possible.

## Step 6: Finishing touches

If there are any visible areas of cardboard, you can stick smaller pyramids on to fill these spaces.
